The exhibition presents 22 interesting and talented design offices from which the founders graduated over the past 20 years from one of the six architecture schools in the Euregio Meuse-Rhine. **ROOTS** aims to give an insight into the development process of these very different practices, their opportunities, working conditions and perspectives in the various countries. Moreover, **ROOTS** comprises an ideas competition for a SCHUNCK\* pavilion. The submitted designs are part of the exhibition.

De tentoonstelling presenteert 22 interessante en talentvolle ontwerp bureaus, waarvan de oprichters in de laatste 20 jaar, aan één der 6 architectuuropleidingen in de Euregio Maas-Rijn zijn afgestudeerd. **ROOTS** wil een blik gunnen op het ontwikkelingsproces van deze zeer verschillende bureaus, hun mogelijkheden, werkvoorwaarden en ontplooiingskansen in de verscheidene landen. **ROOTS** omvat bovendien een ideeënprijsvraag voor een SCHUNCK\* paviljoen.
